ASSEMBLY AND MOUNTING INSTRUCTIONS – FORESITE DESIGNS®  
PARK SCAPES™ HEX PICNIC TABLE: ADA MODEL 230101-230301

PAGE 4

1. Unpack and lay out pieces to assemble. Verify that the parts, quantity, and dimensions match those on the enclosed bill of material. Use a ground cloth to avoid scratching parts.
2. Begin by assembling two seat boards (73-100166 and 73-100186) to each seat weldment. Holes are predrilled. Put boards on work surface at least 15 inches above ground surface to allow placing the seat weldments. With 73-100166 on the right hand side set the boards on the work surface with holes upward to form a V shape.
3. Invert a seat weldment (72-100205) and align holes in the mounting plates to the holes in the seat boards.
4. Attach weldment to boards using 16 (71-TP14112SSTH) ¼ -1 ½ inch screws from bolt kit (71-0031) through the mounting plates into the boards.

5. Assemble two seat weldments each with two seat boards.
6. Using the table weldment 73-100207 as a guide, upright the seat weldments and place them at the opposite corners of the table weldment. Note that tapered holes in table weldment face upward.
7. Attach a corner of the table weldment to the two threaded uprights of each seat weldment, starting at one corner and then the other. Use the 4 (71-1213114FH) ½ x13 – 1 ¼ inch screws from bolt kit. Snug the screws loosely until all the seat weldments are attached, then proceed to tighten each screw until all four are fully tightened.
8. Starting at one edge of the table weldment, place the table board 100162 on the weldment and attach using the 71-TP14112SSTH screws. Screws will need to be tightened from underside.
9. Place table board 73-100163, 73-100164 and the centerboard 73-100209 and tighten screws from underside. Note: if you purchased 230201, umbrella model, attach umbrella mount to the centerboard 73-100165 before attaching centerboard to the table weldment.
10. Place boards 73-100164, 73-100163, and 73-100162 from the center to the opposite edge and tighten all screws from underside.
11. Assembly is finished, unless you purchased the umbrella table model 230301.
12. If you purchased the umbrella model, the centerboard will now be part 73-100165. Install umbrella mount (100206) using 4 of the 71-TP14112SSTH screws into predrilled holes.

**SURFACE MOUNTING INSTRUCTIONS:**

1. Surface mount table with ½ inch anchors into concrete surface using the holes in the plates at the bottom of the three seat weldments as a guide.

BILL OF MATERIALS LISTING FOR TABLES 230101 AND 230301 IS FOUND ON THE FOLLOWING PAGE.

BILL OF MATERIAL – 230101			
ITEM	PART #	DESCRIPTION	QTY
1	73-100166	BOARD (SEAT) 2 X 10 X 49.63	2
2	73-100186	BOARD (SEAT) 2 X 10 X 49.63	2
3	73-100164	BOARD (TABLE) 2 X 6 X 43.13	2
4	73-100209	CENTER BOARD 2 X 6 X 47.00	1
5	73-100163	BOARD (TABLE) 2 X 6 X 36.30	2
6	73-100162	BOARD (TABLE) 2 X 6 X 29.50	2
7	72-100207	WELDMENT HEXAGONAL MOUNT ADA	1
8	72-100205	WELDMENT SEAT MOUNT	2
9	71-0031	BOLT KIT	1
