

# LEED v4 Credit Matrix

| Credit  | Intent   | How We Can Help  | Points  |
|---|--|--|---------|
| Materials and Resources - building life-cycle impact reduction                                    | To encourage adaptive reuse and optimize the environmental performance of products and materials   | Our products are engineered to minimize impact and extend life cycles. We also offer a buyback program and will reuse our material when it reaches the end of its life. Contact us today at <a href="http://plasticboards.com">plasticboards.com</a> | 2 to 4  |
| Materials and Resources - building product disclosure and optimization: sourcing of raw materials | To encourage the use of products and materials for which life cycle information is available and to reward project teams for selecting products verified to have been extracted or sourced in a responsible manner | Our products are manufactured with up to 95% recycled content. Contact us at <a href="http://plasticboards.com">plasticboards.com</a> to learn more  | 1       |
| Materials and Resources - building product disclosure and optimization: material ingredients      | To encourage adaptive reuse and optimize the environmental performance of products and materials   | Our products do not need the harmful chemicals which other building materials need for longevity. MSDS and product information is available. Contact us at <a href="http://plasticboards.com">plasticboards.com</a>                                  | Up to 2 |
